Honorable Hillary Clinton, Secretary
U.S. Department of State
2201 C St. NW

High Representative Ashton, Secretary Clinton:

We are writing to express our concern regarding the continued incarceration of Azimjon Askarov. Independent observers unanimously agree that Mr. Askarov's trial and appeals were marred by serious procedural violations of the laws of the Kyrgyz Republic. During the trial his lawyers were subject to physical attack and threats in the courtroom in the presence of the judge and police, which made it impossible for them to effectively question witnesses.

While in pre-trial detention, Mr. Askarov, an elderly man, was himself the victim of torture. He was humiliated, beaten, and kicked until blood came from his mouth. He was denied access to a lawyer and was repeatedly interrogated as the police attempted to coerce him into testifying against other leaders of the Uzbek community. The police threatened to rape his wife and daughter in front of him.

A renowned U.S. medical expert recently examined Mr. Askarov and concluded that he has suffered severe and lasting physical injuries as a result of his arrest and incarceration. His injuries support his account of torture while in police custody. Mr. Askarov needs immediate medical help for persistent visual loss, traumatic brain injury, and spinal injury. In addition, he requires immediate evaluation for chest pain and shortness of breath, symptoms which are strongly suggestive of coronary artery disease and could be life threatening without immediate treatment. Despite his ill health, Mr. Askarov has announced his intention to embark on a hunger strike in protest at his unjust treatment.

During his many years of work as a human rights defender, Mr. Askarov made a significant contribution to efforts to improve the rule of law in the Kyrgyz Republic and to protect the rights of many individual citizens of the Republic. He is the recipient of numerous international awards for his human rights work. Based on the significant flaws in the handling of his case, his contributions to the Kyrgyz Republic, and his ill health we strongly believe that the Kyrgyz authorities should release him from prison so that he may seek the medical treatment he urgently requires. We have written directly

to President Atambayev, but we also want to urge you to press him personally to grant Azimjon Askarov an immediate pardon on humanitarian grounds, or to ensure his release from prison in any other way acceptable under the laws of the Kyrgyz Republic.

Sincerely,

Albanian Helsinki Committee
