DAY 1 — CAMERA OBSCURA WORKSHOP

Friday, July 26 | 11:00

Build your own matchbox pinhole camera using the ancient Camera Obscura technique. Discover the origins of photography, learn to “hunt” for images, and develop your own black-and-white film! The workshop will be delivered by artist and curator Giorgi Rodionov.

DAY 2 — CYANOTYPE: PRINTING WITH SUN

Saturday, July 26 | 11:00

Step into the 19th century and create your own stunning blueprints with sunlight and iron salts. Make beautiful, personal cyanotype prints — no darkroom needed! The workshop will be delivered by photographer Mano Svanidze.

No experience needed

All materials provided

Optional: bring dried flowers, leaves, or grasses

Leave with your handmade camera, developed photo & cyanotype artwork!

Workshop and lunch are free
